THE WESTIN LONDON CITY HOTEL

LONDON

THE WESTIN LONDON CITY / LONDON

2

An important new work in England for MARMI GHIRARDI / G1938. The company has been involved, in the city of London, in the QBH project that has transformed an existing building, located on one of the city's main thoroughfares, into the five-star hotel "The Westin London City" that will open in October 2021.

Located on the banks of the iconic River Thames, the complex, designed to offer guests a moment of relaxation inspired by nature in the centre of a major city, comprises 222 bedrooms - including 29 suites - and 9 luxury residences.

MARMI GHIRARDI / G1938 contributed to the realization by delivering different marbles: Silver Shadow, Fior di Bosco, Tundra Blue, Nero Avola, Silk Georgette , Bianco Carrara , Bathstone Rock Finished and a Portuguese limestone. These materials were used in the finishing of the public areas of the hotel, in much of the external cladding and in some areas of the flats.

The hotel was built with the idea of combining the surrounding urban environment with the ethics of biophilic design to ensure the psychological well-being of the guests, a concept highlighted in the design of all the hotel's rooms, which were studied down to the finest detail.

With this project, MARMI GHIRARDI / G1938 confirms and strengthens its presence in the UK market, adding a new and prestigious reference to its list of major projects in the city of London.
